[Special to The Times-Dispatch.] Chester, Va., November 10.—Two of the convicts who escaped on Saturday afternoon have been captured and returned to the camp near here. One, who was badly shot, stopped the Richmond and Rappahannock electric car, arriving her at 7:40 o'clock, and asked to be taken to Petersburg, but the conductor landed him here. Dr. Hurt was called, and thought best to send him to the camp, about one miles away. He had buckshot in his head, back and legs—one shot apparently penetrating his lungs. He was lifted to a buggy and sent to the camp. The wounds may prove fatal. The other, who escaped from the gravel pit, was cap-tured in Petersburg, and, unhurt, is back in the gravel pit again. The third man has not been heard from as yet. The wounded man says he was struck at first fire by the guard, and that the other shots falled of mark. The Bermuda School Board met here this morning to select a successor to William M. Harrison, resigned, as principal of the high school here, but, not being prepared to agree on the only applicants in hand, the meeting was postponed to a later date.

Dr. Hodge, M. A., Ph. D., of the University of Virginia, is being considered. It being difficult to select at this time of the school year, the board is somewhat embarrassed in finding applicants. Dr. Hodge is well recommended by Dr. Jarmon, of Farmville.

Raleigh, N. C., November 10.-The members of the Corporation Commismembers of the Corporation Commis-sion were in Elizabeth City to-day for a special hearing on the petition of the Norfolk Southern Railroad Com-pany, for permission to change the lo-cation of its passenger station from the present site on the wharf to a point on the main line, in order that the necessity of backing into the city and consequent loss of much time may be eliminated. Strong opposition has been set up by many citizens. The announcement by Governor Craig of his appointment of special commissioners for the commission that is to pass upon the exceptions of the intrastato carriers to the freight rates fixed in the Justice act, passed by the special session, is expected at any time now, and the most complete mystery envelopes the probable appointees. The declar-ation of the Governor several weeks ago that he wanted no applications, and that the filing of applications or any activities toward securing the ap-pointments individually or for friends would be taken as operating against such appointment, has completely cut out at least direct efforts for securing the appointments. The Governor has issued no statement as to the intrastate rates since he received the protests and accompanying exhibits from the railroad companies, setting out their grounds for claiming that the proposed rates are unjust and confisatory, and much lower than any other States.

Team Work Essential to Good Service

Nall telephone work co-operation is the keynote of good service. You can help the service by answering your telephone promptly. Any incoming message may be of the utmost importance to you.

Be slow to blame the operator for "don't answer" or "busy" reports. In the first case, the operator cannot force the called party to answer; in the second, she must wait until the called party, or some one on his line, gets through talking with another party before she can connect
